

**FRIULCHEM OBTAINS UNI EN ISO 9001:2015 CERTIFICATION
IN ADDITION TO RECONFIRMED ISO 14001 AND ISO 45001 CERTIFICATIONS**

Milan, 21 December 2020 - **Friulchem S.p.A.** (AIM: FCM), an innovative SME and one of the leading Italian companies active internationally in R&D and third party production (CDMO) of intermediate and finished products containing active pharmaceutical ingredients, and food supplements, with particular specialization in drug delivery for the veterinary sector, announces it has obtained **UNI EN ISO 9001:2015 certification** for **Research and Development** and third party **production** of products containing active pharmaceutical ingredients and complementary feeds for veterinary use, as well as for the **Development of technical/regulatory dossiers and marketing** of pharmaceutical products for human use.

The certification, which defines the requirements of an organization's quality management system, joins those already obtained by Friulchem and recently reconfirmed - ISO 14001, the identification standard for the Environmental Management System (SGA), and ISO 45001, which specifies the requirements for Health and Safety Management Systems in the Workplace.

Disma Giovanni Mazzola, CEO of Friulchem, commented: "*The ISO 9001:2015 certification confirms our Company's constant commitment and attention to customer service and our unending interest in quality issues that are decisive in Friulchem's strategic development plan*".

This press release is available on the website www.friulchem.com

Friulchem (AIM:FCM), active in this sector for over 20 years, today is one of Italy's leading CDMOs (*Contract Development Manufacturing Organisations*) operating internationally in the *healthcare* sector through research and development and third party production of intermediate and finished products containing active pharmaceutical ingredients, and food supplements, with particular specialization in *drug delivery* systems for the veterinary sector, which represents Friulchem's excellence, as well as in the development of dossiers for generic medicines for human use. Friulchem is an innovative B2B SME that prides itself on its focus on the end customer. With manufacturing facilities in Vivaro (Pordenone) and administrative headquarters in Milan, it has strong Italian roots. The company, strongly oriented towards R&D activities, boasts established relationships with the leading multinationals in the pharmaceutical sector.
