

## FRIULCHEM OBTAINS RENEWAL OF FAMI-QS CODE AND FOOD SAFETY SYSTEM CERTIFICATION 22000 (FSSC 22000)

### THE CERTIFICATIONS ATTEST TO THE GOOD MANUFACTURING PRACTICES AND FOOD SAFETY OF FRIULCHEM'S MARKETED PRODUCTS

Milan, 11 June 2024 – **Friulchem S.p.A.** (AIM: FCM), an innovative SME and one of the leading Italian operators active at international level in R&D and as a contract development and manufacturing organization (CDMO) of semi-finished and finished products containing active pharmaceutical ingredients and food supplements, with a particular specialization in drug delivery for the veterinary sector, is delighted to announce that it has obtained the **renewal of two certifications** confirming the compliance of the Company's management and production organization with specific internationally valid reference standards: FAMI-QS Code for the production of the mixtures; and Food Safety System Certification 22000 (FSSC 22000) for the preparation of mixtures, with or without granulation, of additives in powder form packaged in aluminum bags, and in chewable tablets packaged in plastic containers, for animal welfare.

The FAMI-QS Code represents a European code of good practices for companies active in the feed additives and premixes sector. This code aims to ensure the adoption of proper procedures at all stages of the production processes, guaranteeing complete hygienic and sanitary safety. On the other hand, the FSSC 22000 certification is an internationally recognized standard for food safety, designed to harmonize the principles and methods necessary to implement food safety systems throughout the entire supply chain.

"The renewal of these certifications is a significant milestone for Friulchem, demonstrating our company's, employees', and collaborators' ongoing commitment to offering unique and reliable products and services," said **Disma Giovanni Mazzola**, CEO of Friulchem. "We continue to invest in Research and Development and follow our strategic path, confident that these recognitions further validate our value and the effectiveness of our business model."

\*\*\*

**Friulchem (EGM:FCM)**, active for over 25 years in this industry, is now one of Italy's leading CDMOs (Contract Development and Manufacturing Organizations) operating internationally in the healthcare sector through third-party research, development, and manufacturing services for semi-finished and finished products, containing both active pharmaceutical ingredients and food supplements, with particular specialization in veterinary drug delivery systems, which, along with the development of dossiers for generic medicines for human use, represents Friulchem's field of excellence. Friulchem is an innovative SME and B2B company with an appreciable customer focus. Thanks to its production plant in Vivaro (Pordenone) and its administrative headquarters in Milan, it has solid Italian roots. The Company is strongly R&D-oriented and has established relationships with leading multinationals in the pharmaceutical industry.
